1.CARNATIC COMPOSER

Understanding the class referent, and the subject predicate relationship between structures of grammatically correct communication. What is that? The higher form of ordered pair variable relationships. A communication channel exists between the operator and the operand, this denotes a dual quality to the link itself, however the link is not separate from the constituents of the construct. Which is to say that communication itself is considered an entity in this system.

2.STAR SEEDE

Our dream is to go to the stars. Our dream is to meet once again in the light.
