Q: The Basics

By Anons

I. INTRODUCTION

(page1)

Q, the anonymous poster who has gained a considerable amount of attention over the past few weeks, is now being discussed by the Mainstream Media (MSM). While the MSM have written stories before about Q, a notable increase in the number of stories written has occurred since President Trump's rally in Tampa Bay on July 31st, 2018. This informative introduction is intended to educate those who are unaware of, interested in, or just beginning to follow Q, and to refute the misinformation, disinformation, and fake news being propagated by the MSM on the subject. To this end, this introduction is not meant to explain all that Q has stated in the information and intel posted (known as crumbs, an allusion to bread crumbs); it will cover just the basics. For more details, the reader should go to sites like qanon.app, qmap.pub, qproofs.com, and other similar sites that compile crumbs, side-by-sides (graphics with sources confirming the intel in crumbs side by side), and proofs (graphics that show that coincidences mentioned by Q are not coincidences at all). In fact, there are no coincidences; neither are the The Great Awakening nor Q conspiracy theories, but rather a global information operation and truth-seeking movement whose goal is to help President Trump Make America— and by extension, the world, a better, safer place for all to live in peace - Great Again.

To be properly introduced to Q, and to the movement associated with Q called the Great Awakening, there are questions the reader will need answered: Where and when did Q start to post? Who posts as Q? What does Q post about? Why does Q post?

II. WHERE AND WHEN DID Q START TO POST?

(page2)

The first crumb Q posted was on 4chan, an image board Internet forum launched in 2003. Q first posted in the thread named “Mueller Investigation” on the board /pol/ on October 28th, 2017, and on other threads until, on October 31st, 2017, Q then posted in the thread named “Bread Crumbs - Q Clearance Patriot.” On November 1st, 2017, the thread “Calm Before the Storm” (CBTS), named after President Trump's mysterious phrase uttered on October 5th, 2017, was created. Q posted on multiple iterations of CBTS (536 threads) until stating that 4chan had been infiltrated, necessitating the move to 8chan.

8chan, a non-affiliated image board similar to 4chan, was launched in 2013 as a free-speech alternative to the increasing censorship at 4chan. A board was created with the same name as the thread Q posted in on 4chan, /cbts/, on November 19th, 2017. Q posted on /cbts/ until January 6th, 2018 (308 total general threads), stating that that board had also been compromised. Q had problems using the tripcode, a pseudo-registration that verifies a poster's identity, notably on December 14th and 21st, 2017, among other instances. This inability to use the tripcode forced the anons, the anonymous posters who followed and conversed with Q on these boards, to make a new board /thestorm/. Q first posted on /thestorm/ on January 5th, 2018. Q and anons stopped

using /thestorm/ after 41 general threads due to internal disputes and self-promotion, forcing a migration to another new board.

On Monday, January 8th, 2018, the board still in use today was created, named REDACTED HAHA (the name of this board will not be divulged so it is not disrupted, and will be referred to henceforth as The Board). Q has been able to post freely on The Board since then, and still posts crumbs up to the time this was written. Also on January 8th, 2018, Q made a private board for Q alone, named /greatawakening/. On previous boards, Q would post crumbs and anons could discuss them there, with Q. On March 28th, 2018, Q stopped using /greatawakening/, stating that it was under attack. After a delay, Q made /patriotsfight/ on May 4th, 2018, the private board Q uses today. There are no communications outside these boards or with anyone privately and, as Q has stated, anyone claiming otherwise should be considered fake news and disregarded.

The MSM cannot accurately describe how The Board works, so some clarification is needed. 8chan is maintained by the Code Monkey (CM), which hosts The Board. The Board Owner (BO) maintains The Board, appointing Board Volunteers (BV) to help. 8chan has a maximum limit of 751 for the number of posts in each thread. So, to maintain the research done by anons in the general thread, an anon must make (bake) a new thread (bread) each time a thread reaches 751 posts. This anon is known as the Baker. The Bakers are responsible for posting Q's recent crumbs, notable posts of research from the previous thread (notables), and other information and links used by anons (the dough) as the first posts in the new thread. Besides the General Research thread, The Board has other threads, maintained by the BO and BVs, for memes, side-by-sides, and other research topics. Those who attempt to disrupt, discredit, or distract anons on The Board are referred to as clowns or shills. Q may post several times a day for weeks or, conversely, not post for days or weeks at a time. There have been more than two million posts on The Board, and over 1700 crumbs have been dropped by Q in total, reaching an estimated audience of tens of millions, not only in the United States of America but also around the world.

III. WHO POSTS AS Q?

(page3)

While Q posts anonymously, there have been hints as to who Q might be. The signoff as "Q" in most crumbs began in a post on November 2nd, 2017. Before this date, Q had already introduced the concept of being a "Q Clearance Patriot". "Q Clearance" is a Department of Energy security clearance for someone who has access to Top Secret, Secret, and Formerly Restricted Data, in addition to National Security Information. This clearance is similar to the Top Secret clearance in the Department of Defense. Importantly, however, Q never claims to have this specific clearance, nor to work for the Department of Energy. It is an allusion. "Q Clearance" simply signifies that Q has a high level clearance, and alludes to the "Q Clearance" given to Jack Ryan in *The Hunt for Red October* wherein he did not have the necessary clearance to help in the search for the rogue submarine. The "Q Clearance" allusion is meant to imply that Q has the necessary security clearance to be cryptically divulging information without leaking, thus maintaining national security.

Q has also posted under other signoffs: "The WH", "4,10,20", "Q+", "Q, DELTA", and "Q [auth478-24zgP]". Occasionally Q does not use a signoff, yet anons know it is Q due to the tripcode used. There are unconfirmed theories about the meaning of each of these signoffs, but

individuals are encouraged to see the signoffs in the context within which the specific posts were made and then to draw their own conclusions. Q has said at least three times that “We serve at the pleasure of the President,” implying not only that Q works for President Trump, but also that Q is a team. Early on, Q used “I” a few times, but now only uses “we”. On occasion, Q posts pictures of the President’s pen and signatures, scenes from Air Force One while the President is traveling, and other images and crumbs that imply that Q is close to the President. Q has also said, “Less than 10 can confirm [who or what Q is],” adding, “Only three are non-military.” It should be noted that the anons on The Board are encouraged not to try to “dox” – or identify – who Q is. The understanding then, is that Q is a team of high-ranking officials within the Trump Administration who post information to awaken the public to sensitive and important events or “happenings” about which the media may or may not choose to report, and to provide insider context thereon. While fewer than 10 people can confirm Q’s identity, it is widely thought that there are multiple people who post as Q. Due to the fact, therefore, that anons do not know whether Q is one person or several when posting, it is common to refer to Q as a collective singular noun.

Whoever Q might be, pictures are posted that point to a connection between Q and the President, and posts are written in real time about policies advocated by President Trump, events in which he takes part, and strategies he deploys. Also in real time, anons decode Q’s cryptic messages to attempt to better understand what President Trump’s intentions might have been or be for a specific event or policy. While the public awaits the revelation of who posts as Q, anons were given this on March 10th, 2018 in reference to Q’s identity: “How many coincidences before it becomes mathematically impossible? Wait until you learn who has been talking to you here.” Q’s identity might remain a mystery to anons and the public, but ultimately that is not important. It is, rather, the messages, information, intel, and facts that Q posts which are important. Anons focus not on who Q is, but on what Q is saying. The intel decoded from the crumbs gives anons, and the public thereafter, what appears to be insider information on what President Trump’s administration has done, is doing, and will do.

IV. WHAT DOES Q POST ABOUT?

(page4)

Starting from Q’s first crumb, there have been cryptically worded statements and questions that are meant to lead anons and the public to question and research insider information about presidential policies, events, and strategies. These details have been and will continue to be provided without violating National Security (NATSEC) and Operational Security (OPSEC) laws, so that there is no leaking or divulging of secret or classified information. Q serves at the pleasure of the President, and the intention of this information operation, known as the Great Awakening, is to inform the public, whom the President serves. This intel is focused on what President Trump has faced, is facing, and will face as the leader of the free world: corruption, subversion, sedition, and evil. The President is fighting for We The People of America and, ultimately, the world.

Ongoing or upcoming events in this fight are alluded to in the cryptic phrases that Q uses as “signatures.” Signatures such as “Alice and Wonderland” (not to be confused with just Alice), “Sum of all Fears,” “Hunt for Red October,” and others are meant to allude to an event that cannot be explained at the time that the signature is used. Q also uses “stringers” that are

important, puzzling, and complex strings of words, numbers, letters, and symbols that are meant to convey more sensitive information. As an example of what stringers are, Q posted this within a series of stringers on November 25th, 2017: [_FREEDOM-_v05_yes_27-1_z](#). Those who are interested in such details are encouraged to research and learn for themselves what these crumbs imply and to draw their own conclusions after viewing the sites, along with associated side-by-sides and proofs, which are listed in the introduction.

Detailed crumbs aside, Q started with a macroscopic overview of the nature and structure of the current World Order, which President Trump was elected to confront, disrupt, and change for We The People. Q overtly stated that three “puppet masters” exert a degree of power in the world that defies credulity: The House of Saud, the Rothschild family, and George Soros, each having their own sources of financing and control mechanisms. The House of Saud, the dynastic monarchy of Saudi Arabia, has amassed trillions of dollars from oil exports. Subsequent Saudi Arabian influence across the Sunni Arab world has resulted in the funding of radical Islamic terrorist groups and malicious political influence in the West. Thankfully, because of allies in Saudi Arabia and President Trump’s actions, Saudi Arabia has been largely removed from this power structure. The Rothschild family has also attained trillions of dollars in wealth through their banking and other financial endeavors undertaken over centuries. Their control over central banking, wars, and governments has enabled them to dictate policies, laws, and the actions of politicians in many, if not most, nations. George Soros, with a presumed, undeclared fortune of around one trillion dollars, is able to control markets, influence judiciaries, politicians, governments and elections through his extensive apparatus of subversive political organizations which are often disguised as something quite other.

Interestingly, Q has stated that Soros took the place that the Rockefeller family previously held in this World Order, that Soros takes orders from the Pope and Vatican, and that the Pope serves the Rothschild family. This worldwide power structure, known as the Cabal, along with the compromised monarchies, politicians, governmental agencies (Deep State), corporations, charities, media organizations, and other private individuals is the reality of “The Swamp” that President Trump is fighting. This same Cabal of corrupted, compromised, and evil individuals was fighting to prevent President Trump, and We The People, from winning in the 2016 election.

(page5)

In fact, Q has repeatedly stated, “They never thought she (Hillary Clinton) would lose.” Upon her presumed victory, for which the Cabal unsuccessfully fought, the Cabal would have continued unimpeded and increased its illegitimate control over the world and its people. The Cabal tried everything they could to get her elected: the financiers spending billions of dollars, media organizations lying, Deep State actors within government agencies leaking, and even spying on President Trump as a candidate, president-elect, and President. After macroscopically describing the Cabal, Q’s crumbs then started focusing on detailed events the Cabal has done, is doing, and likely will try to do. The spying on President Trump and his campaign is an example of how Q focuses microcosmically on events. Q has revealed details about how the CIA, FBI, DNI, Five Eye alliance, Republicans, Democrats, former President Barack Hussein Obama and his White House, and others colluded to abuse the FISA process with a fake “dossier” to illegally spy on President Trump’s campaign using “plants” and spies. Pre-empting the public exposure of their crimes, they have unsuccessfully attempted to frame President Trump through projection,

with allegations of collusion with Russia for the “hacking” of emails from Hillary, the DNC, John Podesta, and others.

The over 1700 crumbs dropped without leaking or breaking national security laws cover a wide range of topics, events, and scandals. This includes coverage of the following: government agencies such as the CIA, DNI, FBI, DOJ, and others; globalism; mass migration; cultural Marxism; human trafficking; the Clinton Foundation; Uranium One; WikiLeaks; Seth Rich; Snowden; Mueller; Huber; many discredited officials from Obama’s presidency; President Trump’s strategies and executive orders; corruption in media; illegal spying on citizens; infiltrations of the United States government by foreign bad actors; extremist organizations such as ISIS and Antifa; political subversion used by the Cabal and their politicians; foreign policy strategies on North Korea and Iran; and much more. Q aims to reveal who controls the world, how they control the world, and what is being done to stop this control. We The People of the United States of America elected President Trump to fight against this control for us, as our representative, but he is not entirely alone. There are Patriots who were and who are helping the President in this fight.

V. WHY DOES Q POST?

If Q serves the President, and he serves We The People, then Q and the President serve We The People together. And together, We The People need to know just what it is that we are fighting, so that we can know how to fight for our common good, for “Where we go one we go all.” This enlightening of the public, not just in America, but worldwide, is known as the Great Awakening. This “awakening” occurs when Q posts crumbs, the anons of The Board decode and decipher their meanings, and then disseminate them to the rest of the public. The timing of when the crumbs are posted is important; however, whether the crumbs precede or come after the events they describe, they nonetheless allow anons to spread the insider information to the public in order to educate, apprise, and awaken those who do not know. Anons make memes in order to make the message easier to understand, side-by-sides to show through open source reporting what the crumbs mean, and proofs to show Q and President Trump’s connections and similar thought processes. No one is forcing anons to decode the crumbs, to research, make graphics, or to disseminate the information to the public. Anons understand that it is for the good of the country and the world that the public have access to this information. After all, it affects them regardless! Millions have already been reached, and millions more will be in the future. Q’s posts have shown these millions what the Cabal has been doing, who is in the Cabal, and how the Cabal has been controlling the world. With each revelation to the public, the control exerted by the Cabal over humanity decreases, day by day, post by post.

(page6)

Q first used the term “Great Awakening” on the second day of posting, October 29th, 2017, and has used it many times since. On January 8th, 2018, Q first used the phrase, “Where we go one, we go all”. Q has used many other phrases, including “Truth belongs to the people”, “The choice to know will ultimately be yours”, “Expand your thinking”, “Dark to light”, “You are not alone in this fight”, “Good will always defeat evil”, “Future proves past”, and “You are the calm before and during the storm”. These phrases signal – to the anons that decode, research, and spread the crumbs, and to the public as well – that we can help President Trump fight the Cabal

by educating others about what it is that we are fighting. Q reminds anons and the public that this fight's "Scope and size [is the] biggest in history", to "Trust the Plan", and to "Stay the course". The Plan to fight the Cabal was initiated by Patriots, and Patriots were, are, and will be helping the President execute it.

The Great Awakening is not a conspiracy theory or a cult, as those who seek to discredit would like the public to think. It is a sophisticated and coordinated information operation from within President Trump's administration to enlighten the public about the true state of affairs of the nation, and the world, while also providing vast amounts of information beyond the scope of this introduction. So vast, in fact, that Q has stated, "These, the crumbs, in time, will equate to the biggest drops ever disclosed in our history." Ultimately, an informed public is a key component of Making America Great Again and Keeping America Great. It is for this purpose that the Declaration of Independence, which led to the founding of the Great Nation that is the United States of America, states that, "Whenever any Form of Government becomes destructive of these ends, it is the Right of the People to alter or to abolish it, and to institute new Government" and such is relevant today. We the American People acted in accordance with this ideal by electing President Trump to reform and renew our government and Q, through the Great Awakening, is enlightening We The People about what the enemies of the people have done, are doing, and will do to fight this historic change. The intensification of attacks against Q, the Great Awakening, We The People, Patriots, the President, and the United States of America are all indicative of the ferocious level of resistance to loss of power and control that hitherto "hidden" dark forces are fighting to maintain as they are increasingly confronted with the light of truth. In order to mitigate the confusion amidst this chaos, Q has asked anons to help be the Calm in the Storm.

God bless the Nations of the World, and God bless a World of Nations.
God bless all Patriots, President Trump, and the United States of America.
