and is on the board of directors of "Friends of the Orphans"
Furthermore the "Friends of the Orphans" orphanage is the very same orphanage Laura Silsby took the children from when she was caught with 33 of them (pic related for more on this)
https://archive.fo/ox7Fa
>PUELLO: There was an orphanage that collapsed in Haiti. It was called friends of the orphans of Haiti. And there was somebody over there that told them that the orphans had no place, no room to place them.

tl;dr: this family with CIA background and connection to Alefantis have an awfull lot of connections to Childprotectionservices including the orphanage that Silsby got the children from. Silsby was also scrubbed from the AlertSense website so you dont see her working there anymore. really makes you think

Regarding Silsby being scrubbed from the web. Laura Silsby is no longer found on the AlertSense website. She used to be on the website with pic and name (as Laura Gayler though), but they restructured the website and now she is gone. For those that dont know, she was caught smuggling out 33 (interesting number by the way) out of haiti after an earthquake, most of which werent even orphans. She then was spoken guilty but only sat the 6 months she awaited trial and was set free afterwards and then went to AlertSense which provides technology to AmberAlert which is a warning system of the government for the case of, ie., children dissappearing.
Furthermore they also scrapped her work at AlertSense from the Wikipedia article. While http://archive.is/soUUb mentions
>Silsby and Hammons worked together at Hewlett-Packard.[24] Silsby-Gayler became associated with MyStateUSA an Idaho corporation based Meridian Idaho in 2010 [30]. MyStateUSA CEO, Claudia Bitner, founder of MySateUSA appointed Silsby-Gayler the CFO and corporate secretary in 2011(30). MyStateUSA changed its name to AlertSense [31]

My theory is that its just a save haven, a meet up place for faggots, degenerates and pedos than can safely exchange and gather contacts and speak about their depravity with kids being around all the time so that the pedos have something to look at while there.

includes the satanism, threat of suicide and blackmail through forcing him into fucking a child.

also goes 3:22 (Skull and Bones) and ends with the words “God please help me” even though all the other High in church clips have that song going on longer at the end

that NXIVM is that sex cult you heard about. turns out stormy daniels the pornstar accusing trump to have paid her to not talk about him fucking her is a member of that same sex cult

https://en.wikipedia.org/wiki/NXIVM

>&In early 2018, NXIVM founder Keith Raniere and associate Allison Mack were arrested and indicted on federal charges related to DOS, including sex trafficking.[13][3] A trial has been scheduled for October 2018.[14]

Shithole people build shithole countries. This should be no surprise.

Yup they probably chose that to be one of the first indictments opened for that reason.
NXIVM gave their members a quota of blackmailing and compromising at least 1 new person per month, with each compromised person bringing in 1 new person themselves. So these fucking satanic pedo sex cults have been growing exponentially unchecked for decades.

Disney has club 33, I repeat, thirty-three, like the masons favorite number showing the connection to those guy.
Remember all the popular MKUltrad teeny stars coming from Disney. And how are people MKUltrad? They are tortured and abused until the personality breaks, and creates new personalities to cope with the thing to protect itself at which point the new personality/personalities can be shaped. They probably use some drugs to enhance the effect while also building in a trigger to bring the desired personality to the front. Like giving them some certain shirt before the abuse starts or whatever. And since those kids have to be groomed/abused to be superstars you can be sure they think they can not only create the next superstar willing to promote their agenda, but also give all the pedophilic elites some fun time by letting them abuse the kids. quit pro quo

no coincidences so many of their stars have some mental collapse later in their career.

Pic related at Baalbek temple, dedicated to Baal aka Saturn aka Satan aka Moloch aka Cronus

The unification of the polar opposites is something that stretches itself across many cultures. Be it the marriage, uniting male and female, often dressed in black and white, resulting in the magic of a new kid being born. Or be it the solar eclipse uniting sun and moon together. In the egyptian mythology osiris dick (male) that gets eaten by a fish (female), or the Washington Monument (a dick, male) standing in the vesica pisces (female). The 2 pillars, Boaz and Jachin which stood before Solomons Temple and represent the sun and moon, and again the polar opposites. Sol, solar, sun, mon, moon. Sol-o-Mo(o)n. Even the "Star of David" is representing the male and female being united with the opposing triangles.

In case of the star of david we have the triangles/pyramid, but the triangle also symbolizes the 3, or with the 2 triangles the 33 All good things come in 3, the holy trinity, 3 nails used to crucify jesus, he came back from the dead on the 3rd day. 33, 3 plus duality, good and evil, male and female (the "star of david", which originally is not a jewish symbol depicts the 33with 2 triangles coming together, the male and female energies coming together.) it is believed where polar opposites meet magic/miracles happen and especialy unification of male and female is a holy event in pretty much all cultures which creates the miracle of life (trannies are a perverted version of this most likely uniting in one body what god seperated mocking him and his creation. Jesus died on the 3rd april 33ad at the age of 33 at 3pm. Counting all the connections and connectionspoints including the hidden one on the tree of life/kaballah gives you 33. the number is also associated with gods promise

Scalise was strongly against humantrafficking and childdiddling
https://twitter.com/SteveScalise/status/867843578265051136
https://twitter.com/SteveScalise/status/835199895413882886

Scalise gets shot, and Pizza gets send to his office
He was then most likely brought into the same Hospital as Seth Rich based on the location, the MedStar Washington Hospital Center.

The shooter is also known for abusing his foster children.

In April 2006, Hodgkinson was arrested for battery, domestic battery and discharging a firearm, after he allegedly physically assaulted his foster daughter and two of her friends.

A St Clair County sheriff’s department incident report said Hodgkinson threw his daughter around a room, pulled her hair and hit her. He then punched a female friend of his daughter in the face “with a closed fist” and struck the woman’s boyfriend in the head with the stock of his shotgun, before firing a round as the man ran away.

Almost a decade earlier, another foster daughter living with Hodgkinson and his wife, Suzanne, had killed herself at the age of 17, according to the Belleville News-Democrat. The daughter, Wanda Ashley Stock, doused herself with gasoline and set herself on fire inside a car.

What the fuck? Who burns himself as suicide? Why not taking a hose and just redirected the exhaust fumes into the car or let it run in a garage or something? Use the shotgun of the guy to make it quick. But fucking burning yourself? Maybe murder instead?

Also Trump brought his personal physician to Scalise.

Furthermore weirdly congress candidate Lindy Li seems to have a connection to the shooter.

The same doctor who is responsible for Scalise, Jack Sava, also appears to be on the guestlist together with the Podestas.

He talks about in the beginning how it is normal to get shot and be relatively fine and later get into shock and collapse explaining the critical condition.

This article talks about why a gunshot to Scalise’s hip, not just any hip, but Scalise’s can be deadly.

However, here it says he was in good spirits, and even called his wife and talked to her. Scalise was on the verge of collapsing but instead of instantly operating on him and stabilizing him they let him talk in peace all chilled out with no worries?

They already set the narrative up to make it seem like its normal if he dies.

This bitch even already talks like he dead.

Furthermore Hodgkinson seems to have disappeared months before the shooting.

Where did he go? Certainly not target practice. Was he maybe snatched up and MKUltra in that time?

Prior to the mass shooting, Hodgkinson visited the senate office of democrat Bernie Sanders, whose failed presidential campaign the gunman had volunteered for. The FBI also said the shooter had been in contact with the offices of democratic senators Dick Durbin and Tammy Duckworth.

“I have just been informed that the alleged shooter at the Republican baseball practice is someone who apparently volunteered on my presidential campaign,” Sanders said in the statement. “I am sickened by this despicable act. Let me be as clear as I can be. Violence of any kind is unacceptable in our society and I condemn this action in the strongest possible terms. But happens to not mention the visit. Hmmm

The FBI released new information Wednesday on the lone gunman.

According to the bureau, 66-year old James Hodgkinson acted alone in the mass assassination attempt, in what the FBI is describing as a “spontaneous” incident.

Just like with Abe Lincoln and JFK I suppose. And so spontaneous he disappeared months prior to the attack and had a list with him. Is anyone else thinking now?
