quick question - is this show supposed to be high school? or is this something like middle school?
I remember when I was in high school playing football, our team of a 15, 16, 17, and 18 year olds were pretty much full grown men. A kid at 15 was 6'1 and 185 pounds running a 4.4 40 yard dash. Not to mention offensive linemen who are 6'5 over 300 pounds.
The actors on this show look like they're pre-teens.

Because disliking children being subjected to subtle pro-cuck propaganda means you think the white race is "supreme".
This is more retarded than the fems calling Return of Kings an "MRA" site (RoK is expressedly anti-MRA).
These people can only think in terms of retarded caricatures that they have to pigeon-hole everyone. In anyone opposed to their degeneracy is automatically a racistnaziwhitesupremacistwhitenationalistshitlorddoublebigot, all of which blend together in their mind into the same kind of horrible stereotype.
I get the feeling that when they picture us they imagine some sharked-toothed hybrid of a wily southern redneck, a jackbooted, swastika-tattooed, skinhead, and the boogeyman.

I'm sure that the Black female SJWs would love to see this tweet. Frame it how the "patriarchy" "oppresses" "PoC and wyywn" with "microaggressions" and with this "hypersexualized" and "fetishized" propaganda "marginalizes" Black "wyywn"
Seriously, its like you don't know your enemy, and how to frame the issue. Divide and conquer. Joseph Goebbels would be disapoint

No he's right. This is certainly important, but it's not the only thing happening right now (and maybe that's on purpose). We just caught banks FUCKING MANIPULATING THE CURRENCY and NO ONE IS GOING TO JAIL. is pretty important, too. We're really close to being able to upset the fiat currency scam entirely; we can't let an opportunity to do that slip away.
Then there's the Saudi document leak, and who knows what's in that.

Oh yeah, don't forget how this nigger's tweet and the show is "institutional oppression by the patriarchy". We have to beat these SJWs at their own game, because these are going to be the first line of defense that Viacom will use to frame the debate. So we need to think 20 steps ahead, and weaponize the information and propaganda. Ultimately we have the truth on our side, we have a degenerate nigger using a shitty show aimed at children to promote his interracial sexual fetishes. Contacting the mainstream media is a good start, but we want to focus on the writer's past as a pornographer. We can utilize SJWs as useful idiots because Black women SJWs consider themselves to be the ultimate special snowflakes, and they hate how black men constantly choose White women over them. They hate this cuckolding meme. We need to find them. Sockpuppeting and astroturfing will help if it's done well.
Once the debate has been framed within this SJW context, at that point is when we can start going after Viacom and their advertisers. Don't make the mistakes that GG did by taking a hard line and framing the debate as "ethics in gaming journalism" because that allows the opposition to move the goal posts and frame it how they want. There is a huge divergence within the SJW community, and we need to capitalize on that. When we have an army of minority female SJWs aware and upset about this, that will scare the shit out of Viacom when they start going after their advertisers. We need to create a female/black male cuckolding meme.
tl;dr - divide and conquer the SJWs and expose the WF/BM cuckolding meme as "oppressive" to women of color and use them to our advantage
this is chess, it isn't checkers

Yeah, but that is assuming the goal is to simply get the show off of the air. Unless it is some massive moneymaker for Nickelodeon, I don't think that will be hard.
The real goal, as I see it, it is to use this as the most blatant example of how movies and television have become anti-white male. This TV show is a gift in that regards, and can help wake up hundreds of thousands if not millions of people as to how toxic our media has become to the supposedly dominant group. It will make it easier to carefully evaluate other TV shows and films without seeming like we are obsessed autists blinded by racist hate.
This is one of the most important stories in the past few years from that standpoint, at least in terms of its potential. Events like Ferguson and Baltimore don't by themselves necessarily wake up millions of white and Asian people to think exactly like we do in terms of race, but they do make the media narrative of white-racism-destroying-black-lives a little harder, and over time they shift consciousness and break people out of their social conditioning.
