You need to advertise the website.
People spending their lives on the PTC's are obsessed with how to make money. So it's a good way ;)

On this PTC, you can advertise for a low cost (2,5\$ the 10k unique views).

<http://www.ultragratis.com/ptc/index.php?view=prices&>

After doing this & waiting few minutes, you'll receive your first \$7.

Wait a second user.
He'll send you \$7 too.
So, send 10\$ to the first user.
He'll be happy & will think that it works !
You won \$11 !

You'll tell me that you can make \$14 instead of \$11.

But.

Suggest to the first buyer to give the url of your website to his friends.

& you'll make more money !

Make it for some users, and when you have \$100 (or more if you want), delete your website & enjoy the money ! (:

USE IT AT YOUR OWN RISKS.
