

AUTOPILOT MONEY MAKING METHOD

This method is based off of ItsFluffy's Monetizing eBook, but more in depth. This is an autopilot method that all you need is to just keep your computer on, and let the money rise up. I myself cant really keep my computer on all the time due to electric bills. Its a gaming PC, uses loads of energy. But, if you have lets say a laptop, then this is a perfect method for it. Since laptops dont really connect to house's electric unless its being charged. I highly recommend something portable that wont take much electricity. NO a phone will not work since you require iMacros and Firefox to do the job. The earnings on this site really depend on how long your PC or Laptop is active. Though it may take a while to get money, but you can just leave this in the background and i dont know play call of duty while it autopilots site. Now enough said, time to get to work.

WHAT IS THE SITE CALLED?

The site is called CashNHits, its basically like HitLeap but you earn money by looking at PTC ads. You actually dont look at the ads, the Macro script will do all the work. I have left the script on for about an hour and gotten at least 10 cents, YEAH I KNOW ITS NOT MUCH, but later on you will earn more from the ads. The payout on the site is I believe 60 cents, which is not much but I guess worth it. I want you to **first sign up** on **CashNHits** before even getting to the "What you need" section of eBook. The link is shown below: BTW its a ref link, so I can see your progress on the site. This is mandatory BTW, and you will get full HF support.

What you need

Here below I will explain on how to make CashNHits fully autopilot with Fluffy's guidance.

YOU WILL NEED:

The following below,

-Firefox

-GreaseMonkey with CashNHits script installed

-Account on CashNHits

CashnHits

This tool will make your day: it will click ads, get YouTube view credits, earn you your own paid to click ad credits (so you don't have to pay for any of them yourself), and much more. All you have to do is install the tool just like the other ones and stay on the view ads page. Do not go to autosurf! This will do the autosurf for you from the ads page. I leave my FF browser open all day while it does the autosurf option all day since there's so much of it every new day and I earn more and more because of it. There's no way you're not going to love this I promise! I have a guide posted but I'll be straight with all of you, this tool kind of renders any guide pointless since it will do everything for you except refer friends (oh so sad I know). But enjoy the tool and guide as always.

You need to get Firefox

You need to install greasemonkey (easy, safe, and free) Make sure this stays up to date!

Below are the scripts you need to install

This is how your page should look; with the exception being that I did all my ads (as I do every day):

Here is one example of some clicks of mine; I NEVER clicked a single one:

A rather detailed guide on CashnHits. Enjoy

Getting Started on CashNHits

Now I want you to go to the cashnhits website. Im guessing you already signed up under the referral link.

Go to www.cashnhits.com.
It should look like this:

The screenshot shows the CashNHits website homepage. At the top, a status bar displays '316,590 Members', '234 New Today', and '\$318,454.06 Total Paid'. A welcome message for 'BlueTigerSlayer' is on the right. The main navigation bar includes links for Home, Store, Earn Money, Contact, Forum, Account, and Logout. Below this is a banner for 'ADVUZE VIRAL ONLINE MARKETING' and a 'qooo.com' ad offering '\$10 per referral'. The central section is titled 'A "Hangout" for the Members and Advertisers' and lists three categories: 'The Advertising Options' (Paid to Click Ads, Paid to Signup, Cheap Banner and Text Ads, Many More Cheap Ways to Advertise), 'The Advertising Features' (Target Globally or Specific Countries, Automated Transactions, 24 Hour Unique Real Visitors, Fast and Friendly Support), and 'The Benefits You Get' (Quality Traffic at Affordable Prices, Real Time Statistics, All Major Payment Processors Accepted, More than Satisfactory Results!!). Below this is a section for 'Donkeymail.com' with a '1\$ Ptp Every Day Earn' offer. The footer contains logos for 'DDOS PROTECTED', 'Buxenger supported', 'PayPal', 'AlertPay', 'LibertyReserve', and various payment methods (VISA, MasterCard, American Express, Discover). Social media links for Facebook, Twitter, and YouTube are also present. The bottom navigation bar is divided into four columns: 'Members' (My Balance, My Referrals, Buy Membership, Point Store), 'Advertisers' (Advertise, Buy Specials, Manage Ads, My Purchases), 'General' (Payment Proofs, Country BreakDown, PTP Top Domains, Terms of Service), and 'Contact Us' (Contact, Forum, Site News).

I want you to navigate to earn money, there should be a drop down menu for PTC ads as shown.
And click on it.

No need to do anything, no doing surveys, offers, no nothing. Just sit back and enjoy life.**
