# Disclaimer

Okay so by purchasing this e-book you must abide to follow this disclaimer with your life! Anyway, don't hand this book out or leech it or I'll find your ass. . . How you ask? I've added something special in to each e-book specifically. This means when I received a leaked version of my e-book I'll know who it was. . . Anyway, I don't fucking care if you sell this again or anything as long as it's not on HACKFORUMS.NET! Okay lets begin.

## Method 1 - Selling This e-Book

Now this sounds like you just bought this e-book for no reason what so ever if I'm going to point out the obvious but it's true. Selling this e-book could definitely get you some extra cash. Simply just sell it how you would anything else. The only thing that is not allowed and is stated in the disclaimer is the fact that it can not be sold on <http://hackforums.net> .

## Method 2 – Free Online Survey

This is also an obvious way of a small amount of cash. Simply fill out ads on free survey sites for cash here and there. This may seem like a scam at most points because it never works and you must always get a certain amount of money to cash out. But it's not. I have found many websites that don't require a minimum cashout and will provide a few of them for you bellow:

<http://cashle.com>

<http://prizelive.com>

<http://barbiepaysfast.com>

And much more.

It's also important that you always sign up for more then one and spend an hour on each daily to increase income as much as possible from these sites.

Method 3 – Open a service

It's not hard to find out how to something for free. So why not do that and make money in the process? With method 3 you can easily make a okay lump sum of cash and learn something while doing it. There is a lot of things you can do including teaching how to make money, encrypting services, website hosting, and much more! Just simply do some research and you'll have the best money making technique in HackForums.

## Method 4 – RuneScape Bot Auths

Selling these can make you some extra cash as well without ever having to spend a dime! All you must do is obtain a couple of these authentication codes by downloading the ones members provide on sharecash for free and then resell them for a dollar! The good part about this is you can sell the same RS Auth to more than one member and if it is banned then they only lost a dollar and you gained from it to buy one auth to resell a couple times.

## Method 5 – AutoDesk Keys

Selling AutoDesk keys is a simple way to make A LOT of money. And I'm not just saying that... I've made over 1,500 dollars selling AutoDesk keys and I'll tell you how. Ebay.... Simply sell the keys on eBay for a fraction of the price they sell for retail price... That can be nearly 400 dollars a key! To obtain the AutoDesk invites it's really simple. Just look around for them being given out for free or even ask me!(Lin<sup>TM</sup>).

## Conclusion

I hope you enjoyed and learned a

lot from this e-book. Some of the things could of obviously been discovered by many but it could of as well helped you too!
