Try to be first who will download highlights,use Ant Video Downloader to download them so you can get more views.

After you have downloaded video go to your YouTube account and upload it.

Make sure you put correct tags so people can easily find it.

Use NBA informations for help with tags.

After you've uploaded video to your channel, you need to put annotations on it.

Go here http://www.youtube.com/my_videos ,choose video you have just uploaded and click on "Annotations" under it.

You see that my video is blocked in some countries, that is because of copyright issues but it's not big problem.

Your video will get blocked only after few days, you will get a lot of views before that happens, so do not worry.

When you go to annotations, click on the plus sign in left lower corner on your video and click on the second icon "Add a note"

Write your website that leads to the CPA offer there and make sure you put that note to go through your whole video so people can see it.

Just wait for few minutes and you will see your video getting a lot of views!!!

You will get so many views if you put some amazing video, like some flashy dunk, game winning shot or something like that.

Just sit back and watch your CPA getting some nice income ;)

Make sure you make nice website,something related to basketball,then you earn much more money.

Here is screenshot of my CPA account :
