Heres the method of getting your own card, I made you sign up on CPAlead for a reason. Go apply for a payoneer card on CPAlead. Fill out the boxes, with your address etc. It will ask for your SSN. Which you can generate with this website <http://www.fakenamegenerator.com/> Its better to use your real one because it will get accepted more faster.

In a couple of days, you will get an email saying you've got your own card and it has been shipped. You will get it in 7-25 days depending on where you live.

Once you recieve your card, go onto payoneer.com and activate it. You are now set to go! Just make money on CPAlead, load it and cash it out at the ATM machine!
