

**\*Everyones eBook has its own personal digital signature, which means I will detect you when sharing/leaking!\***

**1) STEP 3;** If forms don't work on your theme use the image provided (It's very HQ so it will look real). Use this if needed: <http://www.makems.com/myspace-html-preview/index.html>. Here's an updated form for you (<http://sharetext.org/BY>):

```
[contact-form]
[contact-field label="Name" type="name" required="true" /]
[contact-field label="Payment" type="select" required="true" options="Paypal,Alertpay,Coupon" /]
[contact-field label="Currency" type="radio" required="true" options="$7.50, €5.60 " /]
[contact-field label="Paypal/Alertpay" type="email" required="true" /]
[contact-field label="Feedback" type="textarea" required="true" /]
[/contact-form]
```

#### **Alternative**

```
<font face="Arial"><form>
```

```
First name: <input type="text" name="firstname" /><br />
```

```
Last name: <input type="text" name="lastname" />
```

```
</form>
```

```
<form method="post" action="mailto:youremail@email.com">
```

```
Payment method
```

```
<select name="Payment">
```

```
<option>Paypal</option>
```

```
<option>Alertpay</option>
```

```
<option>Check</option>
```

```
</select>
```

```
</form>
```

```
<form>
```

```
Your Paypal: <input type="text" name="firstname" /><br />
```

```
</form>
```

```
<form>
```

```
<input type="radio" name="Money" value="$10" /> $10<br />
```

```
<input type="radio" name="Money" value="7.60" /> €7.60
```

```
</form>
```

```
<form method="post" action="mailto:youremail@email.com">
```

```
<textarea rows="5" cols="20" wrap="physical" name="comments">
```

```
Give us your feedback!
```

```
</textarea>
```

```
</br>
```

```
<input type="submit" value="Submit">
```

</form>

<h6><b>Please note:</b> These payments are automatic and instant, however we insist

</br>you give us valid feedback to improve our services! Only one payment per IP address will be sent.</font></h6>

**2)** To use the auto-blogger software you need to enable XML RPC in the settings. You can only do this if you have your blog on your own hosting.
