

First Up.

As an experienced guide writer, I know that you don't really care about the author's note, so I'll keep it short and sweet. Congratulations, on making a purchase, which will simply put, change the game of money making online, as you know it. Just to restart, this guide does NOT contain:

- PPD
- CPA
- PTC
- E-whoring
- EBay
- Blackhat
- Website making
- Clickbank
- Selling anything

This guide utilizes a method and autopilot system I've created myself, so for once this is your chance to learn a new money making method, instead of the usual methods, just worded differently.

Now enough from me, onto the guide!

Setup:

TO begin with, you will need the following:

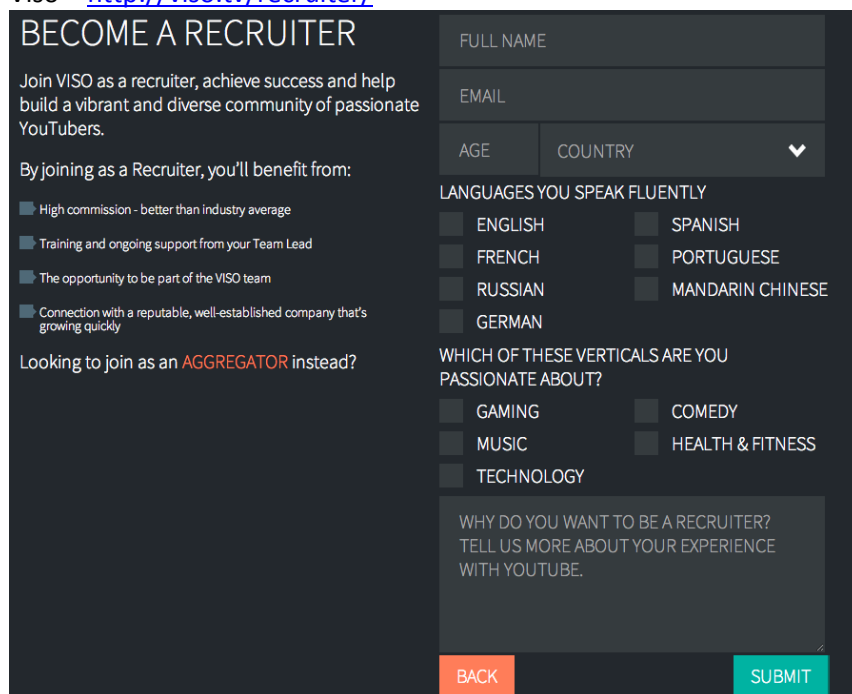

- A PayPal account
- A Skype account
- A YouTube account

Yeah, that's it. No seriously, that's all.

Picking your network:

So in this guide, we will be utilizing YouTube networks to make us money. That's right, you know those networks YouTube channels like to join, such as Machinima, TGN, IGN, etc.? We can use these networks to make us some very easy money with minimal effort. You're essentially selling them a product, which you don't have to pay for, which will be benefiting both of you without any issues. I call this the perfect deal. First up, you need to pick which network you will use. We will be working for the chosen network to recruit new channels for them, and for every channel we get partnered, you will be paid either on a % of VISO's earnings monthly, or a flat onetime fee. The networks we will look at for this guide will be as follows:

Viso – <http://viso.tv/recruiter/>

The image shows a dark-themed web form titled "BECOME A RECRUITER". On the left, there is introductory text and a list of benefits. On the right, there are input fields for personal information, checkboxes for language and vertical preferences, and a text area for a cover letter. At the bottom right are "BACK" and "SUBMIT" buttons.

BECOME A RECRUITER

Join VISO as a recruiter, achieve success and help build a vibrant and diverse community of passionate YouTubers.

By joining as a Recruiter, you'll benefit from:

- ☒ High commission - better than industry average
- ☒ Training and ongoing support from your Team Lead
- ☒ The opportunity to be part of the VISO team
- ☒ Connection with a reputable, well-established company that's growing quickly

Looking to join as an **AGGREGATOR** instead?

WHY DO YOU WANT TO BE A RECRUITER? TELL US MORE ABOUT YOUR EXPERIENCE WITH YOUTUBE.

VISO are a fairly large established network on YouTube, and don't do casual workers. They want people who wish to join the team and keep working for them monthly. You need to go through an official application process to join the VIDO recruiters, and provide a cover letter and all. You will be paid approx. 10% of the monthly earnings of each channel you partner on a monthly basis, until you quit your job as a recruiter.

Information

The Acifin affiliate programme allows you to gain your own referral URL for your friends and fans to click on and sign up for an Acifin partnership. There's no waiting around, your link will be activated immediately.

Your Affiliate referral link will be as follows:
<http://www.acifinnetwork.com/a/apply.php?aff=ID>
where ID is your chosen Affiliate ID.

Please use the form below to register as an Acifin affiliate.

Acifin are another alternative network we can join, and are much easier to join, as they have an affiliate program open to anyone. You can easily join their affiliate program by simply filling out the form, and then you're given an affiliate link. To partner people, it works much like any other referral link — a person sees the link, click it, fill the (very basic) form, get sent the contract and bam, they get partnered. This is the network you wish to join if you don't want to have to be making a set monthly commitment, and work more on a free schedule. Acifin allow you to pick from two payment methods 0 10% of their monthly profit, or a onetime payment of \$5 per channel. I personally prefer the \$5 payment as you get paid the channel up front with a decent chunk and are more done with it.

Finding Potential Partners:

Now that you've picked a network to use from the list above (or another one if you found something you prefer more), and you're signed up and ready to make money, it's time to find partners. For this guise I will be assuming you chose to go with the Acifin network. For a YouTube channel to be able to join a network, it will need to meet these requirements:

- Have no copyrighted content (e.g. uploaded TV shows, music from NOT royalty free artists such as linken park, etc.)
- 300+ daily views and 300 subscribers
- Is not already partnered to another network

To find such channels, it couldn't be easier. Go to YouTube and type in a game name, such as league of legends, to pick a channel with a couple thousand views. To check if they meet the requirements, simply click this link and replace USERNAME with their channel name.

The link: <http://socialblade.com/youtube/user/USERNAME/>
 This channel for example meets the partnership requirements.

Send Message **Cancel**

This is just the basic mockup of a message you could send – you may want to personalize it or improve it however you want – it's your message after all, and you want to make it as enticing as possible so the channel will join the network.

I do recommend that you give the Skype option of contacting you, as talking to a real person really does help potential partners become convinced that they SHOULD join your network. Be sure to be patient with them, friend, and answer any questions they may have. Think of it as Customer interaction.

Payment:

Once they have signed up using your affiliate link – you're done, and you can move on to the next channel. Acifin also provides you with a dashboard where you can track your earnings, so you can see who used your link and was successful partnered. You will be paid roughly around the end of the money unto the payment you gave them on registering.

Finding More Channels:

You obviously want to sign as many channels as you can to the network to maximize your profits, so once you find your original channel, click the similarly ranked channels button, to find more potential channels.

<http://socialblade.com/youtube/user/kovynails/similarrank> <- Sample Link

You will get a page similar to the first one below, which will display similar channels views wise. See all the channels with green boxes around the numbers? These are channels which are over the 300 views a

day requirement. Now simply open tabs for all these channels, check the other requirements, contact them, rinse and repeat. Easy money right there.

How to automate this process:

Now we have a great method, but how can we make it even better, with autopilot earning for you?

Here are some methods how:

- Post your referral link on suitable forums, talk about the amazing perks of your networks and why you should join. Pretty basic method, probably won't yield much results if I'm honest with you.

So here's the REAL method you want to use:

You want to OUTSOURCE the channel finding process. I shall explain how to find these workers later. You can decide to have your "workers" go through the channel entirely to check for copyright, sub count, and etc. (They will possibly goof this up), and have them send your out reaching message along with referral link (which you will provide them) to the potential channel (this they WONT goof up), or you can get them to simply check channels to see their views/day on socialblade, and if they are partnered on another network.

You want to create an "instruction manual" for these workers to use, so they can understand exactly what they are doing. Write up a channel checking method similar to the one I've provided you in this guide, and then turn it into a PDF. This will be ESSENTIAL to having the workers succeed. Once they have done the task to the extent which you have desired (channel finding/checking/messaging, or just channel finding and view checking), then can submit their channel names to a www.drive.google.com form, which you will create. Here is how you want the form laid out:

Channel Submission Form

Be sure to include all information, and your paypal address, so we can pay you!

* Required

Your email address *

Username of channels PMed [www.youtube.com/user/CHANNELUSERNAME]. Separate each username with a , *

Did the channels meet the 300 views a day requirement and have no copyrighted content? *

- ☐ Yes
☐ No

Paypal Email address - so we can pay you! *

Submit

Never submit passwords through Google Forms.

Powered by [Google Docs](#)

[Report Abuse](#) - [Terms of Service](#) - [Additional Terms](#)

This allows you to keep track of the channels easily, and when the channel they have submitted gets partnered under your referral link, you simply check the channel name on the dashboard, refer to the “responses” section of your form to see who contacted them, and pay them accordingly. Be sure to pay weekly, otherwise the workers will slack off from visible profits.

TIP: I recommend having the workers not give your referral link, but your Skype so the potential customer can talk to you directly, this will improve the success rate. Also have them state in their PM(If you have them PMing people) that they are not actually you, but a representative on your behalf.

How do I pay them? Easy! You will pay your worker \$1 per channel signed to the network via PayPal. This means you will get \$4 per channel, but the finding channels process has been skipped thanks to your workers, which is the perfect compensation!

How to find the workers:

Now this bit is easy. Once you've written the instruction manual, teaching the workers how to check channels, your template outreaching message, and the link to your Google form, go around popular forums such as hackforums, leakforums, warriorforums, etc., and market your manual as a moneymaking guide, telling people how it's super amazing and makes you a lot of money hourly. Don't say that you are the one they are working for!! This method of publicizing the "moneymaking eBook" will get people excited and wanting to get the free download. Once they have done so, they can begin using your "brilliant money making method" themselves – reality is they are working for you and making your life easier.

AND THERE YOU HAVE IT!

This is a method that will not only make you amazing profits, but allow you to make them on autopilot thanks to your little worker army, which I just explained above. If you have any questions, feel free to Private message me, and I'll help you out no worries 😊

Happy money making!!
