

WHITE

GENOCIDE

An introduction

Preface

Hello! Welcome! You have noticed that White people worldwide are facing dark times; within this century we are predicted to become minorities in: the United States, Canada, the UK, France, Belgium, Germany, Sweden, Denmark, Italy, and many, many more countries.

In this book I hope to explain how this is a form of genocide against White people, and also how we can defeat the anti-White genocidal maniacs with simple, and easy tactics - the same tactics they have used against our side since the 1960s.

This e-book is divided into two sections: Part 1 is introductory, and Part 2 offers practical solutions and methods tested by a dedicated team of pro-Whites.

Preface

Our team (called “the Swarm” or “bugsters”) is a community of pro-White activists, around 100 or so members, with the goal of an international discussion on White genocide.

Part 1: Introduction

The goal of every pro-White activist should be the international discussion of White genocide.

We intend to do this by using a very simple, but effective, tactic that is, for example, also used by the media, and advertising, for their own purposes.

The tactic is talking about White genocide; the more we talk about it, the more the general public will talk about it.

This is the single most important thing that a pro-White activist can do at this moment.

We will not save the White public, they will save themselves. Metaphorically speaking, someone has opened the

Part 1: Introduction

gates of our castle and allowed the enemy to enter the castle. A few of us (pro-Whites) have woken up and are fighting the enemy and losing. All of our soldiers (White public) are asleep and they haven't been woken up by the fighting and screaming.

The number one priority is not fighting a losing battle, or closing the gates, or to battle as many as possible . . . the number one priority is to wake those men up, and fast!

To wake up our people we must plant the seed of doubt in their minds; it will take a while to grow, but when it does we will have victory.

The seed of doubt is White genocide.

Part 1: Introduction

So what do we mean when we say White genocide?

Well it's simple, the United Nations genocide conventions defines genocide as the targeted destruction of a group, in whole or in part. It does not have to be violent; it could be something like government policies.

White genocide is being accomplished by open borders (which results in millions of non-Whites), and forced assimilation of those non-Whites in ALL and ONLY White countries.

Please note, it is not non-White immigration that constitutes genocide, it is non-White immigration AND forced assimilation.

Part 1: Introduction

To explain it metaphorically again, immigrants are like the crates of guns used to kill us, but it is the forced assimilation that ends our existence.

There are two notable examples of this type of genocide, one is in Australia where the Australian government was forcing the Aboriginals to assimilate (mix with Australians), which in the future would mean no more Aboriginals.

The second example of genocide by forced assimilation is famous: the Chinese genocide of Tibet. This genocide was accomplished more aggressively, unlike the previous example. However, the soldiers did not actually commit genocide by shooting Tibetans; once they had taken control of Tibet, Chinese

Part 1: Introduction

came flooding in to Tibet. The government encouraged Tibetans to give up their cultural identity and ethnic identity.

Doesn't that sound familiar? That is the whole point of “mixing the races”.

Part 1: Introduction

All this brotherly love and “mixing the races” begins with White genocide and ends with White genocide.

The only countries that nurture this idea are White countries.

Isn't it just a huge coincidence that all the countries to become mixed race are White?

There's no coincidence, it's White genocide in action.

Perhaps you are struggling to understand how we are forced to assimilate with non-Whites?

A common anti-White response that I have received many times is “Have

Part 1: Introduction

more babies.”

I could have hundreds of White babies, and it would not do much to help our future.

White genocide and non-White assimilation is forced because there is no White homeland or reservation where we can preserve ourselves.

We are the only group of people that are denied that human right by anti-Whites.

American Indians have 100% American Indian reservations for American Indian survival.

Asians have countries that are 99% Asian for Asian survival.

Part 1: Introduction

Black people have 99% Black countries for Black survival.

If an area, let alone a country, is 100% White it is sued. It is called names.

If an area is majority White it has “diversity” forced on it.

Anti-Whites like the SPLC, and Obama force bus Blacks into majority White areas.

There can be no escape from “diversity”, for Whites.

A small, peaceful island dedicated to White survival would be assaulted day and night by vicious anti-White watchdogs, groups, governments, etc.

Part 1: Introduction

If this is not force what is?

Just because we aren't forced to marry non-Whites doesn't mean we are not facing conditions of forced assimilation - i.e. White genocide.

This was done to Aborigines, Tibetans, and now White people.

Part 1: Introduction

Looking at pro-Whites, the two main arguments against our message of White genocide is:

“Whites are doing it to themselves, therefore it’s not genocide.”

This is silly, international law has no “it’s not genocide if you do it to your own people” get-out clause.

The other form of this argument is that White people are willingly assimilating; this is also an anti-White argument for genocide.

My response is like the one to anti-Whites, a page back: If there were “White” areas and “Multicult-areas” and EVERY White moved to “Multicult-areas”

Part 1: Introduction

you could correctly argue that it is not genocide, and to quote anti-Whites, it would be a population shift and freedom of movement.

Anti-Whites of course say that non-Whites coming into a White area is freedom of movement, but Whites moving away from non-Whites must be stopped.

In other words: no escape for Whites. Therefore it IS genocide against us.

The second main argument against our message is that non-White areas and countries are becoming mixed. Vietnam, is cited as an example of where Whites are moving in to non-White countries and reproducing with them.

Part 1: Introduction

They have not been listening very well to us: there is no escape for White people from this “mixing the races”; it is White genocide.

Non-Whites can live in 100% homogeneous areas without being harassed. Different people are not being bussed and bribed into their communities.

Their leaders don't say “Not to intermarry racially is bad for the survival of the country.” (Nicholas Sarkozy, President of France).

They don't say “We still nurse a sense of our homogeneity and difference from others which the European Union should be doing its best to undermine.” (Peter Sutherland, UK Foreign Affairs

Part 1: Introduction

minister).

Ex prime minister of UK, Tony Blair declared that British are not indigenous, therefore they are not entitled to indigenous rights defined by the UN.

Look at history, no one is indigenous. Today's American Indians stole the land from the original settlers.

When they say indigenous, what they mean is non-White.

In other words, Africa for Blacks, Asia for Asians, but White countries for everyone.

White genocide is executed with the fig leaf of legality, that doesn't make it legal.

Part 2: Tactics and terms

In this section I will cover tactics that are used by myself, and by other members of the Swarm that are ***essential to all pro-White strategies.***

- Call the opposition “anti-White”. That’s what they are, and that’s what they hate to be called. The goal here is to get them on the defensive, i.e. when they say “I’m not anti-White because”
- If they live in a majority White area call them “White ghetto anti-Whites” to really rub it in; it works well if you point out they would never live in what they have helped to create - an area that has successfully committed White genocide.
- They are supposed to be on the defensive, by that I mean they are supposed

Part 2: Tactics and terms

to be answering your questions, they are supposed to be nervous. You are like an interrogator; we know they are demanding White genocide, so get them to admit it!

- When they have said something blatantly anti-White like “yes I support White genocide” get them to repeat it - louder - for everyone to hear. Then end the discussion.
- Ending is harder than beginning. When you have exposed them, get them to repeat it or quote them, then move on. They want to argue, we want to win; your time is valuable, theirs isn't.
- Try ‘loaded’ questions, example: “**As**

Part 2: Tactics and terms

an anti-White, why is the genocide of White children acceptable to you?”

- You should always stay on our message of White genocide. Remember what we discussed? The more we talk about it, the more the White public talks about it. White genocide is designed to be palatable for the masses unlike so many other messages.
- Always call it “genocide”. That’s what it is, when you don’t call it that you are letting the anti-White get away from the crime.
- Don’t argue with them. Make your point, make it again, and again. Repeating, repeating, repeating is political success.

Part 2: Tactics and terms

- You oppose genocide; you have the moral high ground - you don't have to answer their questions. Point out their questions are all aimed at rationalising White genocide. They can not rationalise genocide. It is wrong.
- When they say "RACIST!" say "In your opinion that's racist, you're only saying that because I'm White. Anti-racist is a codeword for anti-White" To an "anti-racist", "White" means "racist".

You can also say "Racist is a hate word, it's used to commit White genocide".

- Compare our situation to Tibet's; it's useful for shutting up the smarty-pants anti-Whites.

Ending

Thank you for reading this e-book. I hope that this will inform you and provide the tactics to help win our people back from the anti-White terrors of White genocide.

All of our tactics may be used to inform about the ongoing program of genocide against my people, White people.
