governments in Europe politically and economically emancipated the Jews in the nineteenth century. In Western Europe at least the Jews benefited greatly and experienced great upward mobility. As they joined the middle and upper classes they also participated in the emerging modern culture, including the avant-garde and other artistic movements. It's a trend that has persisted until this day

The art is wierd because only weird people among Jews become artists, it is weird for a Jew to be an artist.

>>

Anonymous 01/31/16(Sun)06:10:52 No.630563

It's all about the shekels.

Shock value = sales.

If devoting yourself to the grotesque pays the bills, along with grandpappy's six gogrillion trust fund, they'll do it.

I've met some non-degenerate Jewish artists, but they were female and god knows what was done in the background.

>>  **Anonymous** 01/31/16(Sun)07:10:59 No.630685

[>>630664](#)

[>>630674](#)

they aren't subjective, there is an underlying biological function behind beauty and disgust.

Therefore mentally healthy people will share these reactions.

For example, everyone is disgusted by feces.

except the mentally disturbed people who maybe even be sexually turned on by poo.

A person with a facial defect like a tumor is not beautiful, your brain responds to certain biological cues that indicate health.

The subjectivity only occupies a narrow range within objective beauty or disgust.
